

TECHNOTE

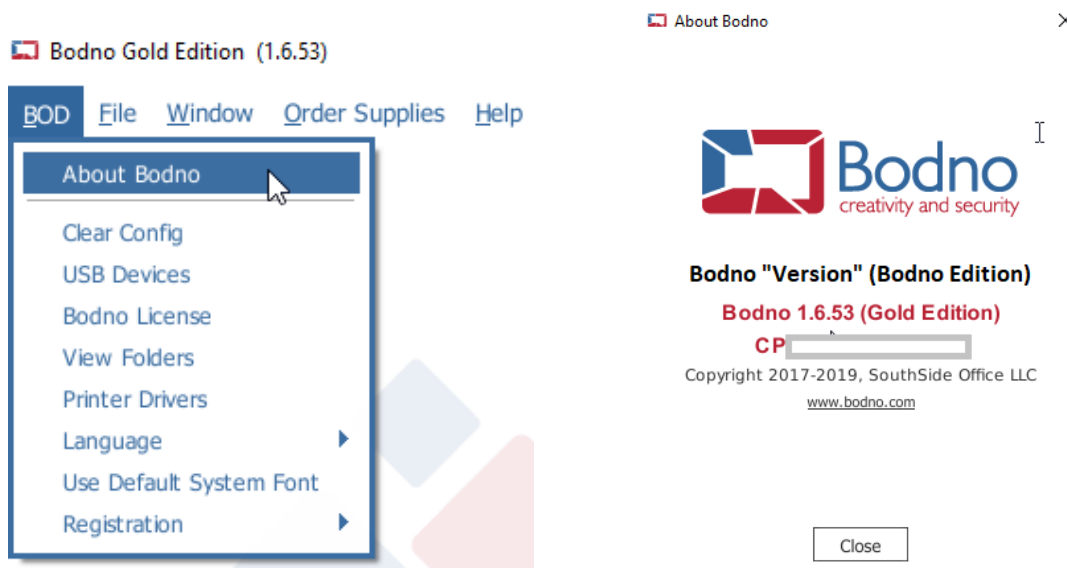

Check Version and Edition

DATE: February, 2019
AUTHOR: Bodno

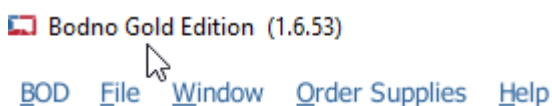

To confirm which Bodno **Version** and which Bodno **Edition** we are using, we need to open the Bodno application, through the Bodno shortcut item on the desktop.

Then, we can go to the menu **BOD->About Bodno**.

This information could be found also on the Bodno application top bar.

Where “Gold” is the Bodno **Edition** and the 1.6.53 is the Bodno **Version**.
